Planning Urban Adaptation – Tools and information on Climate-ADAPT

A practical guide & case studies on adaptation at the urban level

Lea Kleinenkuhnen, Climate Alliance

17 September 2020

In the next 25 minutes...

Tools and information on Climate-ADAPT for cities

- Urban Adaptation Support Tool
- Urban Adaptation Map Viewer
- Case studies
- Q&A

Questions for you!

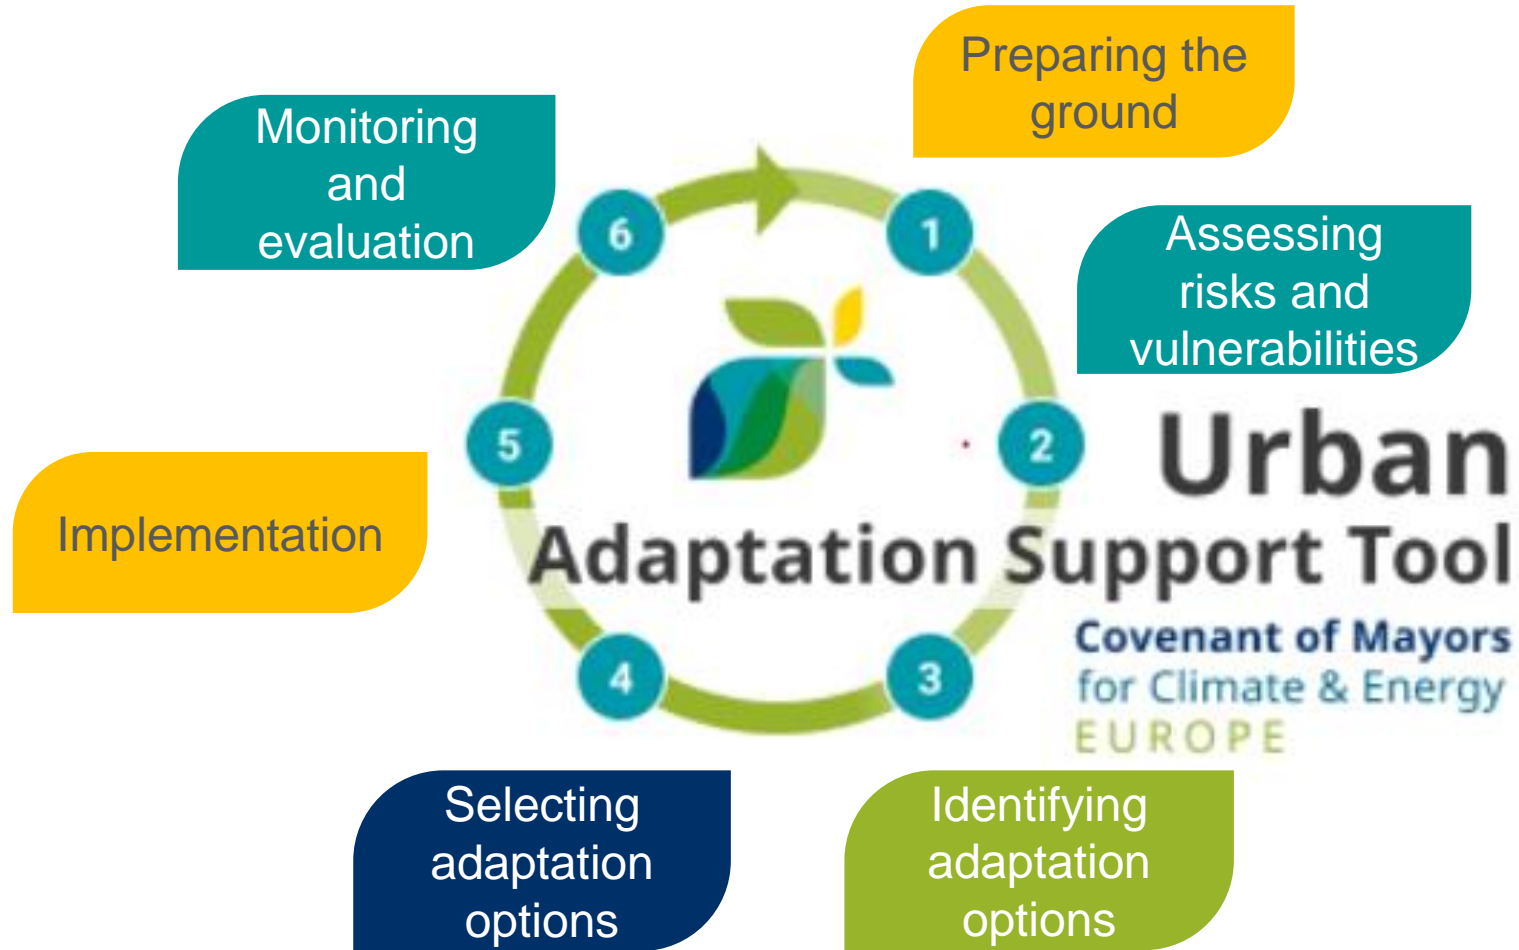

1) Which type of organisation do you represent?

- National authority/agency
- Regional authority/agency
- Local authority
- Research/academia
- Business
- NGO
- Other (feel free to type more information in the chat)

2) How familiar are you with the Climate-ADAPT platform?

- I have heard of it
- I have used the information and tools on it once/ I use it sometimes
- I use the information and tools on it frequently
- I have never heard of it

Goal: assist local authorities in developing, implementing and monitoring climate change adaptation plans

[Revised version released in June 2020 >>>](#)

<https://climate-adapt.eea.europa.eu/knowledge/tools/urban-ast/>

- Jointly developed by the European Environment Agency and the Covenant of Mayors-Europe Office
- Takes you through all the steps to develop and implement an adaptation plan
- Contains references to valuable guidance materials and tools
- The main adaptation tool for the Covenant community - tested and approved by Covenant signatory cities
